

BLUE COMMUNITY MAKEOVER™

# Project Cost Estimates & Homeowner Priority Ranking Form

Instructions: For Go Blue! projects you're interested in, please use the table below to insert project dimensions and estimate the Total Project Cost (A). Next, use the estimated cost sharing Grant Amount (B) available to you through the Clean Water Grant and calculate Your Estimated Cost (C) per project. Please rank the projects you would like to complete at your home through the 2010 Blue Community Makeover™ for Diamond Lake Watershed. Rank your top choice #1, your second choice #2 and so on. **This is not a contract. We will use this information to apply the grant funds to complete, at minimum, all the #1 priority projects.** We hope everyone will participate at some level, because every small thing helps Diamond Lake Go Blue!
